## PROJECTS

### Simply Rojgar Manpower App (12/2023 - 01/2025)

- Developed a job searching app for labor-intensive jobs like mining, gardening, and other hard work. The app connects job seekers with potential employers.
- Focused on creating an intuitive user interface with seamless navigation, allowing users to easily find and apply for jobs.
- Built using React Native and Expo for cross-platform compatibility, ensuring a smooth user experience on both iOS and Android devices.
- **Tech Stack:** HTML, CSS, React Native, Expo, GraphQL APIs, Apollo Client.

### Film Maker Portfolio (10/2024 - 12/2024)

- Developed a professional portfolio website for the famous filmmaker Uzer Khan. The portfolio showcases a video portfolio with different categories, providing a dynamic and engaging user experience.
- Utilized Next.js for server-side rendering, enhancing performance and SEO.
- Integrated Framer Motion for smooth animations and transitions, creating an immersive user experience.
- **Tech Stack:** HTML, CSS, Next.js, Tailwind CSS, Framer Motion, REST APIs.

### GKC Klinika Web Application (12/2023 - 06/2024)

- Developed a comprehensive web application for searching and booking appointments with doctors and hospitals, similar to platforms like Practo.
- Ensured responsive design and cross-browser compatibility, providing a consistent experience across devices.
- Implemented a social media-like feed where doctors can follow other doctors and view their articles, fostering a collaborative and knowledge-sharing environment.
- Integrated secure payment gateway for booking appointments, ensuring a seamless and safe transaction process.
- **Features:** Book appointments, Search for doctors globally, Doctor/hospital registration and profile claiming, Profile management for doctors and hospitals, and Patient engagement features.
- **Tech Stack:** HTML, CSS, Tailwind CSS, Next.js, NestJS, Rest API AWS.
